

YOUR UNION NEEDS YOU

**Budget Day Rally
Scottish Parliament
14 December 2017
Assemble 11.30am
Rally begins 12 Noon**

We all know the negative impact that the relentless cuts to Local Government funding is having; Jobs lost, services depleted and pay squeezed year after year.

UNISON along with other trade unions will be holding a Rally at the Scottish Parliament calling for greater investment in Local Government and an end to the Pay Cap.

We need to be standing together saying Enough is Enough.

The Scottish Government has to stop paying lip service, but show that they are committed to abandoning the Austerity agenda by giving Local Government the funding it needs to provide meaningful public services, and to end the Public Services Pay Cap.

They have the necessary Tax and borrowing powers to do so.
