

EQUALITIES in UNISON

Dear Colleague

EQUALITIES IN UNISON

UNISON believes there are still groups in society who suffer discrimination. Whether they be Black, Disabled, Lesbian/Gay or Women, society and/or law creates barriers towards real equality.

As a union we fight to achieve equality and believe it is important we ensure we facilitate the involvement of all members of UNISON.

An important step towards achieving our objectives is the established network of Self-Organised Groups which provide forums for those who share similar discrimination.

Within the City of Edinburgh UNISON we have active Self Organised Groups for Disabled Members, LGBT (Lesbian Gay Bi-sexual Transgendered) Members, UNISON has a Young Members Organisation for those who are 26 years of age (or younger). In the near future we hope to establish a Self Organised Group for Black/Minority Members.
