---

“No school cleaner gambled billions on the stock exchange - No home carer, no social worker, no librarian. None of them created this recession. Why should they be expected to pay for it?”

*Dave Prentis, UNISON General Secretary*

## *Council plans mean.....*

- Millions in cuts to YOUR services
- Services sold of to the lowest bidder - taking jobs out of Edinburgh with your taxes paying for profits instead of services
- Pay cuts for some of the lowest paid doing the most crucial jobs

All this when local people and local businesses need investment in public services to build us out of the recession
