

G7:

No “Greenwash”

ACT NOW ON CLIMATE CHANGE

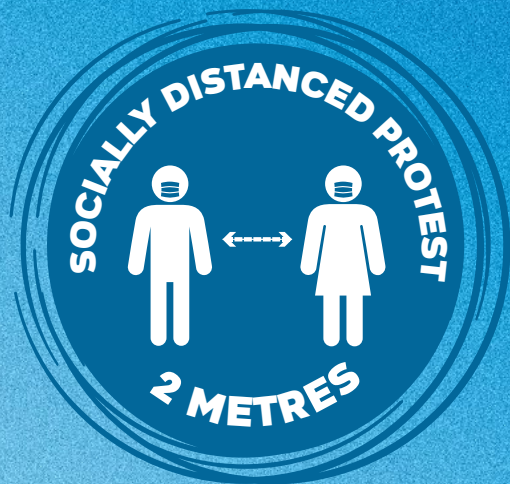

On Saturday 12 June the G7 world leaders will be meeting in Cornwall to prepare for the CoP26 Climate Change talks in Glasgow later this year.

To “greenwash” their image the G7 leaders will say fine words about tackling climate change but do little to bring about desperately needed change. **Their plans and pledges fail to keep us below 1.5 degrees warming, with most putting us past 3c, which is a death sentence for millions around the planet.**

**Join the protest in Edinburgh!
Bring climate justice to the G7/COP26 and support those rallying in Cornwall!”**

To get involved, email:
