The Edinburgh, Lothians and Borders May Day Committee extends its unwavering solidarity with the people of Palestine. We share the deep concerns of many people around the world over the ongoing conflict and the worsening impact it is having on civilians in Gaza.

In order for peace and justice to prevail, we urgently call for an immediate ceasefire to prevent further suffering and create a path towards a just and lasting resolution to this decades long conflict. Together, we hope for a future where all people in the region can live in peace, security and dignity.
