

# Is Labour's GB Energy a Green Dream?

## Edinburgh Climate Coalition Public Meeting

**Thursday 24 October. 6.30-8pm**

**Augustine United Church, 41 George IV Bridge, Edinburgh EH1 1EL**

**Introduced by Col McCail, climate activist and member of Scottish Labour's Exec Ctte.**

The Labour government's promised "GB Energy" will make or break whether we meet the 2050 Net Zero target. GB Energy promises:

- A 'publicly owned energy company' delivering 100% clean energy.
- Saving households a whopping £93 billion!
- A form of public ownership in a sector monopolised by profiteers.

Will these promises be delivered on and crucially is the Labour government ready to take on big oil and gas?
